**SECTION A: ORIGIN DETERMINATION**

**ARTICLE 3.3**  
**Originating Goods**

For the purpose of implementing this Agreement, goods shall be considered as originating in the territory of a Party, if:

- (a) goods are wholly obtained or produced there according to Article 3.4; or
- (b) goods are not wholly obtained or produced entirely there provided that the goods have undergone sufficient transformation according to Article 3.5; or

and the goods satisfied all other applicable requirements of this Chapter.

**ARTICLE 3.4**  
**Wholly Obtained or Produced Goods**

For the purposes of paragraph (a) of Article 3.3, the following goods shall be deemed to be wholly obtained or produced in the territory of a Party:

- (a) plants, fungi and plant products grown, collected or harvested there;
- (b) live animals born and raised there;

**ARTICLE 3.5**  
**Sufficient Working or Processing**

1. For the purposes of paragraph (b) of Article 3.3, goods shall be deemed to be originating if the goods satisfy any of the following:
  - (a) a Change in Tariff Heading, which means that all non-originating materials used in the production of the goods have undergone a change in HS tariff classification at the 4-digit level; or
  - (b) a Qualifying Value Content which means that percentage of value added content reached in the production of the goods is not less than 40 percent of the ex-works price; or
  - (c) notwithstanding subparagraphs (a) and (b), if the goods are listed in Annex 3A (Product Specific Rules), then the goods shall fulfil the specific rules detailed therein.
2. For the purposes of paragraph 1, the Qualifying Value Content shall be calculated as follows:

$$QVC = \frac{\text{ExWorks Price} - \text{VNM}}{\text{ExWorks Price}} * 100 \%$$

where:

**QVC** means the qualifying value content of goods expressed as a percentage;

**ex-works price** means the price paid for the goods ex-works to the producer in the Party in whose undertaking the last working or processing is carried out provided that the price includes the value of all the materials used minus any internal taxes which are, or may be, repaid when the goods obtained are exported;

When the producer of goods acquires non-originating materials within that Party the value of such materials shall not include freight, insurance, packing costs, and any other costs incurred in transporting the material from the supplier's warehouse to the producer's location.

### **ARTICLE 3.6** **Intermediate Goods**

For non-originating materials that undergo sufficient production in the territory of a Party as provided in Article 3.5, the resulting goods shall be considered as originating and no account shall be taken of the non-originating materials contained therein when those goods are used in the subsequent production of other goods.

### **ARTICLE 3.7** **Accumulation**

1. Without prejudice to Article 3.3, the goods originating in a Party, which are used as materials in the production of final goods in another Party, shall be considered as originating in that Party, where the last operations other than those referred to in Article 3.9 have been carried out. The origin of the goods used as materials in the production of the final goods shall be confirmed to the authorised body of the exporting Party of such final goods by documentary evidence (such as Proof of Origin or any other documents).
2. The Parties may agree to review this Article with a view to explore the application of the concept of accumulation between the Parties and non-Parties should there be a free trade agreement between each of the Parties and the non-Party.

### **ARTICLE 3.8** **Tolerance**

1. Notwithstanding Article 3.5, goods will be considered to have undergone a change in tariff classification, if the value of all non-originating materials that are used in the production

of the goods and that do not undergo the applicable change in tariff classification does not exceed 10<sup>1</sup> percent of the ex-works price of the goods.

2. The value of non-originating materials referred to in paragraph 1 shall be included in the value of the non-originating materials for any applicable qualifying value content of the goods.

### **ARTICLE 3.9** **Insufficient Operations**

1. Whether or not the requirements of Article 3.5 are satisfied, goods shall not be considered to be originating in the territory of a Party if the following operations are undertaken exclusively by itself or in combination with each other in the territory of that Party:

- (d) spare parts and materials used in the maintenance of equipment;

### **ARTICLE 3.11 Accessories, Spare Parts, Tools**

1. Accessories, spare parts, tools, and instructional or other information materials delivered with goods that form part of the goods’ standard accessories, spare parts, tools, and instructional or other information materials shall be regarded as a part of the goods, and shall be disregarded in determining whether or not all the non-originating materials used in the production of the originating goods undergo the applicable change in tariff classification or whether the goods are wholly obtained provided that:
- (a) the accessories, spare parts, tools, and instructional or other information materials are classified with and not invoiced separately from the goods; and

- (b) the type, quantities and value of the accessories, spare parts, tools, and instructional or other information materials presented with the goods are customary for the goods.
2. Notwithstanding paragraph 1, if the goods are subject to qualifying value content requirement, the value of the accessories, spare parts, tools and instructional or other information materials shall be taken into account as originating or non-originating materials, as the case may be, in calculating the qualifying value content of the goods.

**ARTICLE 3.12**  
**Packaging Materials and Containers for Retail Sale**

1. Each Party shall provide that packaging materials and containers in which goods are packaged for retail sale, if classified with the goods, according to Rule 5 of the General rules for the interpretation of the Harmonized System, shall be disregarded in determining whether all the non-originating materials used in the production of the goods undergo the applicable change in tariff classification or whether the goods are wholly obtained.
2. Notwithstanding paragraph 1, if the goods are subject to qualifying value content requirement, the value of such packaging materials and containers shall be taken into account as originating or non-originating materials, as the case may be, in calculating the qualifying value content of the goods.

**ARTICLE 3.13**  
**Packing Materials and Containers for Shipment**

Each Party shall provide that packing materials and containers for shipment of goods are disregarded in determining whether the goods are originating.

**ARTICLE 3.14**  
**Fungible Goods and Materials**

1. Each Party shall provide that the determination of whether fungible goods or materials are originating shall be made through physical segregation of each of the goods or materials, or, in case any difficulty arises in keeping separate stocks of originating and non-originating materials, through the use of any inventory management method, such as averaging, last-in, first-out, or first-in, first-out, recognised in the generally accepted accounting principles of the Party in which the production is performed, or otherwise accepted by the Party in which the production is performed.
2. Each Party shall provide that an inventory management method selected under paragraph 1 for particular fungible goods or materials shall continue to be used for those fungible goods or materials throughout the fiscal year by the person of the Party that selected the inventory management method.

**ARTICLE 3.15**  
**Sets of Goods**

Sets, as defined in Rule 3 of the General Rules for the interpretation of the Harmonized System, shall be regarded as originating when all component goods are originating. However, when a set is composed of originating and non-originating goods, the set as a whole shall be regarded as originating provided that the value of non-originating goods does not exceed 15 percent of the ex-works price of the set.

**SECTION B: TERRITORIALITY AND TRANSIT**

**ARTICLE 3.16**  
**Principle of Territoriality**

1. The conditions for acquiring origin set out in Article 3.3 must be fulfilled without interruption in the territory of the Party.
2. Where originating goods exported from the territory of a Party to a non-Party, return to the exporting Party, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities and (or) authorised bodies that:
  - (a) the returning goods are the same as those exported; and
  - (b) the returning goods have not undergone any operation beyond that necessary to preserve them in good condition while in that non-Party or while being exported.

**ARTICLE 3.17**  
**Transit and Transshipment**

1. Each Party shall provide that originating goods retain their origin if the goods have been transported directly to the importing Party without passing through the territory of a non-Party.
2. Notwithstanding paragraph 1, each Party shall provide that originating goods retain their origin if they are transited or stored in a temporary warehousing through one or more intermediate non-Parties, provided that the goods:
  - (a) remained under customs control in the territory of a non-Party;
  - (b) have not entered into trade or consumption there; and
  - (c) have not undergone any operation there other than unloading, reloading, repackaging, affixing marks or labelling, storing, split from bulk or any operation required to keep them in good condition.
3. In order to confirm that the conditions set out in paragraph 2 have been fulfilled, one of the following documentary evidences may be used:

- (a) the transport documents covering the passage from the territory of one Party to the territory of the other Party and containing description of the goods and, where applicable and taking into consideration transportation conditions, the names of the ships or other means of transport used and the containers' numbers; or
  - (b) the documents issued by the customs authorities of the non-Parties where the goods were in transit, or other commercial documents that contain description of the goods and confirm that the goods have not been altered or processed within its territory, as provided for in subparagraph (c) of paragraph 2.

**ARTICLE 3.18**  
**Free Economic Zones or Free Zones**

1. The Parties shall take all necessary steps to ensure that originating goods traded under cover of a Proof of Origin, which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.
2. Goods produced in a free zone situated within a Party shall be considered as originating goods in that Party when exported to the other Party, provided that all requirements of this Chapter have been met.

**ARTICLE 3.19**  
**Third Party Invoicing**

1. The importing Party shall not reject preferential tariff treatment for originating goods in cases where the invoice is issued in a non-Party, provided that such goods meet the requirements of this Chapter.
2. In such case, the exporter of the goods shall indicate relevant information in the appropriate box of Certificate of Origin as detailed in Annex 3B (Certificate of Origin).

- (b) a Declaration of Origin made out by approved exporter in accordance with Article 3.25.

**ARTICLE 3.21**  
**Exemptions from Proof of Origin**

Notwithstanding Article 3.20, the Proof of Origin is not required in order to obtain preferential tariff treatment for importation of originating goods where the customs value does not exceed the amount of 200 US dollars or the equivalent amount in the importing Party's currency, provided that the importation is occasional and does not form part of series of importations that may reasonably be considered to have been undertaken or arranged for the purposes of avoiding the submission of the Proof of Origin. A Party, on voluntary basis, may apply on importations into its territory a higher amount than the specified above.

**ARTICLE 3.22**  
**Certificate of Origin**

1. Certificate of Origin shall be issued by an authorised body of a Party, upon an application having been made by the producer, exporter, or its authorised representative. 5. The authorised body of the exporting Party shall, to the best of its competence and ability, ensure that origin of the goods is determined in accordance with provisions of this Chapter

and that Certificates of Origin are issued in conformity with the format and duly completed in accordance with the requirements set out in Annex 3B (Certificate of Origin).

### **ARTICLE 3.23**

#### **Specific Cases of Issuance of Certificate of Origin**

1. Where a Certificate of Origin has not been issued prior to the time of exportation, it may be issued retroactively. In this instance, the Certificate of Origin shall bear the words "ISSUED RETROACTIVELY" or "ISSUED RETROSPECTIVELY" (both terms have the same meaning) as referred to in Annex 3B (Certificate of Origin). Such Certificate of Origin shall be valid for the granting of preferential tariff treatment for a period of 12 months from the date of its issuance.
2. In the event of theft, loss or destruction of the original Certificate of Origin issued in paper format, the producer, exporter or its authorised representative may apply to the authorised body for its certified duplicate. A certified duplicate shall bear the words "CERTIFIED TRUE COPY OF THE CERTIFICATE OF ORIGIN NUMBER\_\_DATE\_\_" or "DUPLICATE OF THE CERTIFICATE OF ORIGIN NUMBER\_\_DATE\_\_" (both terms have the same meaning) as referred to in Annex 3B (Certificate of Origin). In this instance, the Certificate of Origin shall bear the words "ISSUED IN SUBSTITUTION FOR THE CERTIFICATE OF ORIGIN NUMBER\_\_DATE\_\_" or "REPLACEMENT OF THE CERTIFICATE OF ORIGIN NUMBER\_\_DATE\_\_" (both terms have the same meaning) as referred to in Annex 3B (Certificate of Origin). Such Certificate of Origin shall be valid for the granting of preferential tariff treatment for a period of 12 months from the date of its issuance.
4. In the case of transportation of originating goods between the Parties, which have not undergone any working or processing during such transportation, the authorised body of the latter Party may issue new (back-to-back) certificate instead of Certificate(s) of Origin. Such back-to-back Certificate of Origin shall be issued on the basis of the Certificate(s) of Origin issued by the authorised body of the former Party (the Party where the goods originate or intermediate Party) and shall bear the words "ISSUED ON THE BASIS OF CERTIFICATE OF ORIGIN NUMBER(S)\_\_DATE(S)\_\_" as referred to in Annex 3B (Certificate of Origin). Such Certificate of Origin shall be valid

for the granting of preferential tariff treatment for a period of 12 months from the date of its issuance. However, such back-to-back Certificate of Origin shall not be issued after the period of more than three years from the date of issuance of Certificate of Origin issued in the Party where the goods originate.

The authorised body of the latter Party shall ensure that the total quantity of goods re-exported under the partial shipment covered by the back-to-back Certificate of Origin does not exceed the total quantity of goods specified in the Certificate(s) of Origin issued by the authorised body of the former Party.

The designated governmental authority of the exporting Party, subject to fulfilment of the respective domestic laws and regulations, may authorise any exporter (hereinafter referred to as "approved exporter"), who exports goods under this Agreement and meets certain requirements including those referred to in paragraph 3, to make out Declarations of Origin irrespective of the value of the goods concerned provided that requirement set forth in paragraph 8 has been met.
2. An exporter seeking such authorisation must offer to the satisfaction of the designated governmental authority all guarantees necessary to verify the origin of the goods as well as the fulfilment of the other requirements of this Chapter.
3. The designated governmental authority of a Party may grant the status of approved exporter to its exporters subject to any conditions, which it considers appropriate in accordance with its respective domestic laws and regulations, based, among others, on the following general principles:

4. When granting an authorisation, the designated governmental authority of a Party shall provide the approved exporter with a unique authorisation number. The authorisation number must be indicated in the Declaration of Origin.
5. The designated governmental authority of the exporting Party shall, on a regular basis, verify the use of an authorisation. If the approved exporter no longer meets the requirements referred to in paragraphs 2 and 3, or otherwise makes improper use of the authorisation, the designated governmental authority may, subject to domestic laws and regulations, withdraw it.
6. The designated governmental authority of a Party shall provide the other Parties, publish or make otherwise available the list of approved exporters, including their authorisation numbers, and periodically update it.

7. Exchange of such notifications shall be made between the Eurasian Economic Commission and the Ministry of Economy of the United Arab Emirates.

**ARTICLE 3.25**  
**Declaration of Origin**

1. The Declaration of Origin as referred to in subparagraph (b) of Article 3.20 can be made out by an approved exporter within the meaning of Article 3.24 for any consignment regardless of its value.
2. The Declaration of Origin is a statement on origin made on any commercial documents related to the goods, including invoice, delivery note, etc. which describes the goods concerned in sufficient detail to enable them to be identified. Declarations of Origin shall be made out by typing, stamping or printing in the English language in accordance with the template in Annex 3C (Declaration of Origin).
3. The Declaration of Origin shall cover the originating goods under one consignment and shall remain valid for the granting preferential tariff treatment for a period of 12 months from the date it was made out.
4. In order to confirm the origin of goods in accordance with subparagraph (b) of paragraph 2 of Article 3.29, an original Declaration of Origin or its copy shall be submitted to the customs authority of the importing Party for the granting preferential tariff treatment.

**ARTICLE 3.26**  
**Development of Electronic Data Origin Exchange System**

1. With the view of further development of paperless trade the Parties shall endeavour to develop and support the Electronic Data Origin Exchange System ("the EDOES"), based on an electronic data exchange concept.
2. The EDOES shall enable the customs authorities of the importing Party to receive through the electronic data transmission the information from the Certificates of Origin issued by the authorised bodies of the exporting Party.
3. All the requirements and specifications for the application of the EDOES shall be set out in separate Protocol.

4. Notwithstanding subparagraph (b) of paragraph 2 of Article 3.29, if the Parties implement the EDOES, the original Certificate of Origin, its copy or electronic Certificate of Origin shall not be required by the customs authority of the importing Party. In such case, the date and number of such Certificate of Origin shall be specified in a customs declaration for the granting of preferential tariff treatment.

**ARTICLE 3.27**  
**Importation by Instalments**

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing Party, dismantled or non-assembled products within the meaning of Rule 2 (a) of the General Rules for the interpretation of the Harmonized System are imported by instalments, a single Proof of Origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

**ARTICLE 3.28**  
**Treatment of Minor Discrepancies**

1. The discovery of minor discrepancies between the statements made in the Proof of Origin and those made in the documents submitted to the customs authority of the importing Party for the purpose of carrying out the formalities for importing the goods shall not ipso-facto invalidate the Proof of Origin, if it does in fact correspond to the goods submitted.
2. Obvious formal errors, such as typing errors, on a Proof of Origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.
3. For multiple goods declared under the same Proof of Origin, a problem encountered with one of the goods listed shall not affect or delay the granting of preferential tariff treatment for the remaining goods covered by the Proof of Origin.
4. In order to confirm the origin of goods the actual weight of delivered originating goods shall not exceed five percent of the weight specified in the Certificate of Origin or commercial document containing the Declaration of Origin.

**SECTION D: PREFERENTIAL TARIFF TREATMENT**

**ARTICLE 3.29**  
**Granting Preferential Tariff Treatment**

1. Preferential tariff treatment under this Agreement shall be applied to originating goods that satisfy all the requirements of this Chapter.
2. Customs authorities of the importing Party shall grant preferential tariff treatment to originating goods of the exporting Party provided that:

- (a) transit and transshipment requirements referred to in Article 3.17 have been fulfilled; and
  - (b) origin of imported goods is confirmed by Proof of Origin in accordance with requirements provided for in this Chapter.
3. If appropriate Proof of Origin or, when requested, documentary evidence of the transit and transshipment requirements has not been submitted and (or) not been accepted by the customs authority of the importing Party during its clearance procedures, the importing Party shall impose the applied MFN customs duty or require payment of a deposit on the imported goods, not higher than the applied MFN customs duty, or another guarantee in accordance with respective laws and regulations of the importing Party. However, the importer may make a claim for preferential tariff treatment and refund of any excess customs duty or deposit paid within 12 months from the date of registration of customs declaration in accordance with respective laws and regulations of the importing Party provided that all requirements of this Article have been met.

**ARTICLE 3.30**  
**Denial of Preferential Tariff Treatment**

1. Except as otherwise provided in this Chapter, the customs authority of the importing Party shall deny a claim for preferential tariff treatment or recover unpaid duties, in accordance with its laws and regulations, where the following requirements of this Chapter have not been met:
- (a) the goods do not meet the origin criteria referred to in Article 3.3;
  - (b) the transit and transshipment requirements provided for in Article 3.17 have not been fulfilled or importer fails to provide documentary evidence of the transit and transshipment requirements, if such documentary evidence is requested by the customs authority of the importing Party;
  - (c) the Proof of Origin has not been submitted to the customs authorities of the importing Party or has not been issued and duly completed as specified in Annexes 3B (Certificate of Origin) and 3C (Declaration of Origin);
  - (d) the goods specified in the Proof of Origin (including the information specified in commercial documents mentioned in the Certificate of Origin) cannot be clearly identified with the goods declared upon customs declaration. However, lack of correspondence between the HS code detailed on the Proof of Origin and the actual classification by the customs authority of the importing Party shall not in itself constitute a reason for denial of preferential tariff treatment, if the goods specified in the Proof of Origin can still be clearly identified with the goods declared upon customs declaration;
  - (e) the actual weight of declared importing goods exceeds by five percent from the weight specified in the Proof of Origin;

- (f) information on the Certificate of Origin is not available in the web-database or the Electronic Data Origin Exchange System, referred to in Articles 3.26 and 3.32, on the date of registration of customs declaration;
  - (g) information contained in the Certificate of Origin does not correspond to the information in the web-database, referred to in Article 3.32, on the date of registration of customs declaration;
  - (h) information on the validity of the approved exporter authorisation is not made available to the customs authority of the importing Party as referred to in paragraph 6 of Article 3.24 on the date of registration of customs declaration;
  - (i) the verification procedures undertaken under Articles 3.33 and 3.34 fail to determine that the goods are originating in accordance with this Chapter;
  - (j) the verification authority of the exporting Party has confirmed that the Certificate of Origin had not been issued by the authorised body of the exporting Party (i.e. forged) or had been annulled (withdrawn);
  - (k) the customs authority of the importing Party receives no reply within period of time provided for in paragraph 4 of Article 3.33 after the date of a verification request made to the verification authority of the exporting Party, or if the response to the verification request does not contain sufficient information to conclude whether the goods originate in a Party; or
  - (l) the customs authority of the importing Party within 60 days from the date of request of the verification visit, stipulated in paragraph 2 of Article 3.34, receives no written consent from the verification authority of the exporting Party, or receives a refusal to conduct such verification visit pursuant to paragraph 5 of Article 3.34.
2. If the customs authority of the importing Party denies a claim for preferential tariff treatment, it shall provide the decision in writing to the importer that includes the reasons for the decision.
  3. Upon being communicated the grounds for denial of preferential tariff treatment, the importer may, within the period provided for in the customs laws and regulations of the importing Party, file an appeal against such decision with the appropriate authority under the customs laws and regulations of the importing Party.

2. The web-databases shall meet the following requirements:
  - (a) completeness, relevance and reliability of the information contained;
  - (b) data protection of the information contained from unauthorised access, destruction, modification or any other illegal actions;

### **ARTICLE 3.33** **Origin Verification**

1. The customs authority or, as the case may be, other governmental authority of the importing Party (hereinafter referred to as “the requesting authority”) may request an origin verification at random or when it has reasonable doubt as to the authenticity of the Proof of Origin or as to the accuracy of the information regarding the compliance of the goods, covered by the Proof of Origin, with the origin criteria, pursuant to Article 3.3, and (or) to provide additional information and (or) documentary evidence from the producer and (or) exporter of the goods (hereinafter referred to as “the verification request”).
2. For the purpose of paragraph 1, the requesting authority shall send a written verification request to the verification authority of the exporting Party to conduct the requested origin verification.
3. The verification request shall be accompanied with the copy of Proof of Origin concerned and shall specify the reasons and any additional information suggesting that the particulars given on the said Proof of Origin may be inaccurate, unless the origin verification is requested on a random basis.
4. Pursuant to paragraph 2, the verification authority of exporting Party receiving the verification request shall respond to the request promptly, but not later than 120 days after the date of such request, and shall clearly indicate whether the Proof of Origin is authentic and (or) whether the goods can be considered as originating in the Party, including by providing requested documentary evidence received from the producer and (or) exporter of the goods.

However, in case the verification request is to verify the authenticity of the Proof of Origin only, the verification authority of the exporting Party shall reply not later than 60 days from the date of such verification request.

5. For the purpose of origin verification, the verification authority of the exporting Party shall have the right to check the facilities used in the production of the goods and review the exporter’s or producer’s accounts and records related to the goods in question.
6. When a reply from the verification authority of exporting Party is not obtained within a period of time provided for in paragraph 4, the customs authority of the importing Party shall deny preferential tariff treatment to the imported goods subject to the origin verification.
7. A copy of the verification request and its accompanying documents, as well as the verification response to such request, shall be transmitted electronically between the requesting authority of the importing Party and the verification authority of

the exporting Party, via the contact email addresses referred to in subparagraph (c) of paragraph 2 of Article 3.31.

8. The customs authority of the importing Party may suspend granting preferential tariff treatment while awaiting the result of verification. However, it may release the goods to the importer subject to any administrative measures deemed necessary in accordance with the requirements of such Party's laws and regulations.
9. The customs authority of importing Party shall verify the authenticity of the Certificate of Origin in accordance with this Article if:
  - (a) the web-database or the EDOES is not functioning properly from *force majeure* or other valid causes; or
  - (b) the Certificate of Origin issued by the authorised body that was not notified by the Eurasian Economic Commission or the Ministry of Economy of the United Arab Emirates as provided for in Article 3.31.
10. Notwithstanding subparagraph (a) of paragraph 9, if the importer is in possession of a Certificate of Origin issued in original paper format, preferential tariff treatment may be granted without obligatory verification procedures.
11. In cases set out in to in subparagraphs (b) to (h) of paragraph 1 of Article 3.30, the customs authorities of the importing Party are not required to make a verification request for the purposes of making decisions on denial of preferential tariff treatment.

#### **ARTICLE 3.34 Verification Visits**

1. If the customs authority of the importing Party is not satisfied with the outcome of the origin verification referred to in Article 3.33, it may, under exceptional circumstances for justifiable reasons, request a verification visit to the exporting Party in order to check the producer or exporter premises including inspection of the exporter's or producer's accounts, records or any other check considered appropriate.
2. Prior to conducting a verification visit pursuant to paragraph 1, the customs authority of the importing Party shall deliver a written notification to the verification authority of the exporting Party with its intention to conduct the verification visit.

A copy of the written notification shall also be transmitted electronically from the customs authority of the importing Party to the verification authority of the exporting Party, via the contact email addresses referred to in subparagraph (c) of paragraph 2 of Article 3.31.
3. The written notification mentioned in paragraph 2 shall be as comprehensive as possible and shall include, among others, the following information:

4. The verification authority of the exporting Party shall obtain the written consent of the producer or exporter whose premises are to be visited and transfer it to the requesting Party.
  5. When a written consent from the producer or exporter is not obtained within 60 days from the date of request of the verification visit notification or a refusal of the producer or exporter to conduct such verification visit is received, the customs authority of the importing Party shall deny preferential tariff treatment to the goods referred to in the said Proof of Origin that would have been subject to the verification visit.
  6. Verification visit shall be carried out by the verification team consisting of the representatives of the relevant authorities of the importing and the exporting Parties.
  7. The producer and (or) exporter of the goods who has given consent for verification visit shall assist in its implementation, provide access to the premises, financial (accounting) and production documents related to the subject of the verification visit and shall provide any additional related information and (or) documents, if so requested.
  8. If there are obstacles by the authorities or entities of the inspected Party during the verification visit, which result in the absence of possibility to conduct the verification visit, the importing Party has the right to deny preferential tariff treatment to the goods concerned.
  9. The results of the verification visit shall be documented in the English language in the form of a report by the verification team, which shall clearly indicate the compliance or non-compliance of the goods verified with the requirements of this Chapter.
  10. The verification visit process, including the actual visit and preparation of the report in accordance with paragraph 9, shall be carried out within a maximum period of six months from the first day the initial verification visit was requested. While the process of verification is being undertaken, paragraph 8 of Article 3.33 shall be applied.
  11. Verification authority of the exporting Party shall send to the producer and (or) exporter of the goods verified the results of such verification not later than 20 days from the date the verification visit is finished.
  12. Any suspended or denied preferential tariff treatment shall be reinstated based on the results of verification visit, indicating that goods which are the subject of verification visit meet the requirements of this Chapter.

**ARTICLE 3.35**  
**Record Keeping Requirement**

1. For the purposes of the verification process pursuant to Article 3.33 and 3.34, each Party shall require that:

- (a) the producer or exporter retain, for a period not less than three years from the date of issuance of the Proof of Origin, or a longer period in accordance with its domestic laws and regulations, all supporting records necessary to prove that the goods for which the Proof of Origin was issued were originating; and

The consultations shall take place immediately, but not later than 30 days upon the reply to the request to arrive at a mutually agreed solution. Any agreed solution shall be laid down in writing and shall be binding upon the Parties. If no mutually agreed solution is reached within 40 days from the date of the receipt of the request, the importing Party may apply a final bilateral safeguard measure.

*Limitations for Applying a Bilateral Safeguard Measure*

10. Bilateral safeguard measures may not be applied in the first year after the entry into force of this Agreement.

11. A bilateral safeguard measure shall not be applied except to the extent and for such time as may be necessary to prevent or remedy serious injury and, it shall not be applied for a period exceeding two years. However, this period may be extended to up to one additional year if the competent investigating authority of the importing Party determine, in conformity with the procedures specified in paragraphs 15 and 17, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment, and that there is evidence that the industry is adjusting, provided that the total period of application of a bilateral safeguard measure, including the period of initial application and any extension thereof, shall not exceed three years. The Party maintaining the measure beyond a two-year period shall progressively liberalise it at annual intervals during the period of application.
12. Neither Party shall apply a bilateral safeguard measure more than twice on the same good provided that the bilateral safeguard measure shall not be applied again on the same good for the period of time equal to that during which such measure had been previously applied.
13. Upon termination of the bilateral safeguard measure, the rate of duty shall be at the level which would have been in effect on the date of termination of the measure in accordance with Annexes 2A (Schedules of Tariff Commitments), 2B (UAE Schedules of Tariff Commitments) and 2C (EAEU Schedules of Tariff Commitments) of this Agreement had the measure not been imposed.
14. Bilateral safeguard measures shall not be applied or maintained after the end of the transition period. Following the termination of the transition period if requested by either Party the Joint Committee shall evaluate whether to continue the bilateral safeguard measures mechanism included in this Chapter in accordance with Article 16.1 (Joint Committee).

#### *Investigation Procedures*

15. A Party may apply a bilateral safeguard measure only following a bilateral safeguard proceeding by its competent authority pursuant to paragraphs 15-18. This bilateral safeguard proceeding shall include appropriate means in which importers, exporters, and other interested parties could present evidence and their views, including the opportunity to respond to the presentations of other parties and to submit their views.
16. Any information which is by nature confidential, or which is provided on a confidential basis shall, upon cause being shown, be treated as such by the competent authorities. Such information shall not be disclosed without permission of the party submitting it. Parties providing confidential information may be requested to furnish non-confidential summaries thereof or, if such parties indicate that such information cannot be summarised, the reasons why a summary cannot be provided. 17. In the proceeding to determine whether increased imports constitute a substantial cause of serious injury to a domestic industry or threat thereof under terms of this Article, the competent authorities shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of that industry, in particular, the rate and amount of the increase in imports of the good concerned in absolute and relative terms, the share

of the domestic market taken by increased imports, changes in the level of sales, production, productivity, capacity utilisation, profits and losses, and employment. This determination shall not be made unless the bilateral safeguard proceeding demonstrates, on the basis of objective evidence, the existence of the causal link between increased imports of the good concerned and serious injury or threat thereof. When factors other than increased imports are causing injury to the domestic industry at the same time, such injury shall not be attributed to increased imports.

18. Each Party shall ensure that its competent investigating authority complete any such bilateral safeguard proceeding within no more than one year of its date of initiation.

#### *Provisional bilateral safeguard measures*

19. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a bilateral safeguard measure on a provisional basis pursuant to a preliminary determination by its competent investigating authority that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and that such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry.
20. Before a Party applies a provisional bilateral safeguard measure it shall notify the other Party. This notification shall contain all relevant information, including preliminary evidence of serious injury or threat thereof caused by increased imports, a precise description of the product involved and the proposed measure, as well as the proposed date of introduction and expected duration. A Party shall not apply a provisional bilateral safeguard measure until at least 45 days after the date on which its competent investigating authority initiate a bilateral safeguard proceeding, in order to allow interested parties to submit evidence and views regarding the imposition of a provisional bilateral safeguard measure. Such measure should be promptly refunded if the subsequent proceeding referred to in paragraph 15 does not determine that increased imports constitute a substantial cause of serious injury to a domestic industry or threat thereof.
21. The duration of any provisional bilateral safeguard measure shall not exceed 200 days, during which time the Party shall comply with the requirements of paragraphs 15 -17.

The duration of any provisional bilateral safeguard measure shall be counted as a part of the initial period of application of the bilateral safeguard measure and any extension referred to in paragraph 11.

#### *Compensation*

No later than 30 days after it applies a bilateral safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalising compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the bilateral safeguard measure. The applying Party shall provide such compensation as the Parties mutually agree.
23. If the Parties are unable to agree on compensation within 30 days after consultations begin, unless the Parties agree otherwise, the Party against whose originating product the measure

is applied may suspend the application of concessions with respect to originating product of the applying Party that have trade effects substantially equivalent to the bilateral safeguard measure.

24. A Party against whose product the bilateral safeguard measure is applied shall notify the Party applying the bilateral safeguard measure in writing at least 30 days before it suspends concessions in accordance with paragraph 23. The notification shall contain:
  - (a) description of the suspension of concessions, including a description of the equivalence of the suspension of concessions;

  - (c) form of the suspension of concessions;
  - (d) the date of introduction of the suspension of concessions and its expected duration.
25. The right of suspension referred in paragraph 23 shall not be exercised for the first 12 months during which a bilateral safeguard measure is in effect provided that the bilateral safeguard measure has been applied as a result of an absolute increase in imports of an originating good subject to a bilateral safeguard measure and conforms to the provisions of this Agreement.

**ANNEX 17A**  
**UNDERSTANDING ON THE ENERGY RESOURCES SECTOR**

The Parties have reached the following understandings:

- (a) The UAE is an independent, sovereign, federal State, with seven sovereign Member Emirates (Member Emirates), and pursuant to its Constitution, each Member Emirate retains full sovereignty, sovereign rights and exclusive jurisdiction in its territory over its natural resources and wealth of which the Energy Resources Sector is the subject matter of this Annex. For the purposes of this Annex, "Energy Resources Sector" shall mean all hydrocarbons such as oil, gas, and condensates extracted from the territory of the UAE and/or its Member Emirates, derivatives and primary by-products thereof originating in the territory of the UAE and/or its Member Emirates (energy resources) with respect to ownership, management, exploration, development and production, exploitation (including reservoir management), transportation, storage, refining and processing, and distribution up to and including retail distribution of such energy resources.
- (b) In recognition of the foregoing, this Agreement shall not grant any rights or obligations to the EAEU and its Member States or create any obligations for the UAE or any of its Member Emirates with regard to the Energy Resources Sector. Accordingly, the Energy Resources Sector is excluded from all aspects and provisions of this Agreement, including Chapter 13 (Dispute Settlement). All matters pertaining to the Energy Resources Sector of any of the Member Emirates are within the exclusive jurisdiction of the Member Emirates, and all determinations and decisions of each Member Emirate made by such Member Emirate's competent authorities pertaining to the Energy Resources Sector (Competent Authorities) that are the subject of its jurisdiction shall be final, binding and not subject to review or challenge.
- (c) Upon entry into force of this Agreement and in the event that the UAE with the concurrence of the Member Emirates' Competent Authorities grants any rights excluded by this Annex to a third country with respect to the Energy Resources Sector by a free trade agreement, such rights shall be granted to the EAEU and its Member States.
- (d) Notwithstanding the above, in the event of a difference in the interpretation or application of this Annex, the UAE and the EAEU and its Member States commit to have recourse to confidential consultations at the request of either Party under Article 13.7 (Consultations) of the Chapter 13 (Dispute Settlement). The Parties shall make every attempt through consultation to arrive at a mutually satisfactory resolution within 60 days from the request.
- (e) In the event that the UAE and the EAEU and its Member States fail to achieve a mutually agreed solution within 60 days following recourse to consultations, or if the UAE fails to comply with the mutually agreed solution within the agreed timeframe, the only recourse of the EAEU and its Member States shall be that it may suspend benefits under this Agreement proportionate to the trade effects which

the measure in question causes or threatens to cause. Moreover, the EAEU and its Member States shall repeal its compensatory measure to the extent that the UAE's measure in question ceases to apply. The above-mentioned procedure shall also apply in case of any dispute relating to whether the EAEU and its Member States' compensatory measure under this Annex is proportionate, with the UAE likewise ultimately having the right to suspend benefits proportionately.

- (f) The UAE and the EAEU and its Member States agree that this Annex shall constitute an integral part of this Agreement and that, in the unlikely event of any inconsistency between this Annex and any provisions of this Agreement, this Annex shall prevail to the extent of that inconsistency.
